Clint,
 You know how unhappy I am with Sulleys Tops. Since we spoke last, I contacted Jerry Sullivan, owner of Sulleys Tops, about the terrible job he did in restoring my 58 vette convertible top frame. The frame is bent in places and will not work up and down as it should as well as rusty areas where the frame wasn't taken apart correctly. He offered to pick the top up again to repair it, but I don't trust him to restore the frame the second time around. His workmanship is about as bad as I have seen and you mentioned that this isn't the first time you have seen this caliber of work from Sulleys. I contacted Al at Al Knoch to let him know about this situation. I sure hope nobody else gets taken by Sulleys, but I'm sure he will fool what a farce his company is. Please let the word out what kind of work this guy does. I look forward to picking up my top next week. Thanks.
