Ernie & Clint:

This is just a quick note, to again thank you for your help in fitting the convertible top to my '62 Corvette resto-mod at Carlisle this past Saturday. I was truly touched.

When I was in my early 20's a friend and I built the molds for a sports car that resembled a '62 Vette in the rear and an XKE in the front. We produced about 35 bodies before the molds were ruined. I did another project in the 80's. I never lost the bug, but hesitated to build my dream project (the current '62 Vette) due to cost. My wife, Tina, who I have known now for 51 years, urged me to go for it two years ago when I retired. She is one of the sweetest girls on this planet.

I got my leather interior from Al Knock; liked them; then went for the top. I was bummed out big time when Al's team got stumped on the top fitment Tuesday. He told me to bring it back Saturday, and that he would ask the "Coffman's" for help. You guys really know your business, and your inner brackets saved the day. By the way, I forgot to mention that I am a minor customer. I had purchased a set of your front header end caps. The quality is excellent and they fit well with little coaxing.

I consider myself old school, and you two are the same when it comes to work ethic and willingness to help a guy out, and even to help a competitor. Bill Kuhn, who did my body and paint work, also spoke highly of you. When it comes to tops, Coffman will be the name I use in all future talks with Corvette buddies, club and professionals (not to discredit Al who I equally respect). You guys are first class. Thanks again.
